

Reference : CHANGE NOTICE No.: CN/15/02

Subject : Modification in identification on **mdi** Inline Filters and Inline Vent Filters

Scope : This change notification will affect the following products supplied either non sterile or pre-sterilized:

- **mdi** Inline Filters and Inline Vent Filters (all product types with size 50m and 37 mm)

Background:

In our efforts to rationalize production process, certain changes have been made in identification of serial number on **mdi** Inline Filters and Inline Vent Filters (all product types with size 50m and 37 mm)

Need for Change:

To rationalize our production process, the quantity of Inline Filters and Inline Vent Filters manufactured in a lot/batch has been increased from total quantity in four digits to total quantity in five digits. To cater this the serial number printed on Inline Filters and Inline Vent Filters has been modified from four digits to five digits.

How Does It Affect the User:

From a practical point of view the changes done will only modify the serial number printed on Inline Filters and Inline Vent Filters. All performance specifications, product attributes, product packaging and traceability remain unchanged.

- **Identification on Inline filter and Inline Vent Filter** – serial number on Inline Filter and Inline Vent Filter is now printed in five digits which was earlier printed in four digits.

IDENTIFICATION ON INLINE FILTERS AND INLINE VENT FILTERS		
	OLD	NEW
Printing on filters	IK0975-0125	IK0975-00125
Description	IK0975 is Lot No. of Inline Filter/Inline Vent Filter and 0125 is four digits serial No.	IK0975 is Lot No. of Inline Filter/Inline Vent Filter and 00125 is five digits serial No.

Effective Date:

mdi Inline Filters and Inline Vent Filters (as mentioned above) manufactured after July 25, 2015 will have said changes.
