

Change Notice No.	Notification date	Implementation date
CN/15/13	15 th November 2015	15 th December 2015

Subject : Rationalization of product trade names

Scope : This change notification will affect the following products:

- **mdi** High Throughput Polyethersulfone Membrane Capsule Filter type DK2S (products with first four digits of catalog number as DK2X)
- **mdi** High Throughput Polyethersulfone Membrane Large Capsule Filter type LK2S (products with first four digits of catalog number as LK2X)
- **mdi** High Throughput Polyethersulfone Membrane Inline Filters type VK2S (products with first four digit of catalog number as VK2X)
- **mdi** High Throughput High Temperature Resistant Polyethersulfone Membrane Cartridge Filter type CH2S (products with first four digit of catalog number as CH2X)

Background:

mdi is manufacturing high throughput Polyethersulfone membrane filters as mentioned above with trade name AseptiCap KS (Capsule filters and Inline filters) and AseptiSure KS (Cartridge filters). To uniquely identify products manufactured with high throughput Polyethersulfone membrane, separate trade names needs to assigned to such products.

Need for Change:

In our efforts to rationalize our products, unique trade names have been assigned to product manufactured with high throughput Polyethersulfone membrane and same will be reflected in product related documentation such as certificate of quality, product insert, product data sheet etc.

How Does It Affect the User:

From a practical point of view it is only a 'paper change' and in no way will affect the properties, performance characteristics and traceability of the product under actual conditions of use. All performance specifications, product attributes and traceability remain unchanged. The accompanying product literature e.g. Certificate of quality, product insert, product data sheet etc. will reflect the said changes (As mentioned in Table-1).

Change Notice No.	Notification date	Implementation date
CN/15/13	15 th November 2015	15 th December 2015

Table-1

Product Type	Product Catalog No. (first four digits of catalog number)	Existing Trade Name	Proposed Trade Name
DK2S	DK2X	AseptiCap KS	AseptiCap KMax
LK2S	LK2X	AseptiCap KS	AseptiCap KMax
VK2S	VK2X	AseptiCap KS	AseptiCap KMax
CH2S	CH2X	AseptiSure KS	AseptiSure KMax
