Change Notice No.	Notification date	Implementation date
CN/16/14	20 <sup>th</sup> October 2016	20 <sup>th</sup> November 2016

## Subject : New design of vent/drain valves of mdi Large Capsule Filters

Scope : This change will affect the products with following catalog numbers (where \* can be any alphabet or numeral):

- LGS\*\*\*\*\*\*\*\*\*
- LGZ\*\*\*\*\*\*\*\*\*
- LOL\*\*\*\*\*\*\*\*\*
- LPT\*\*\*\*\*\*\*\*\*

#### Background:

In our efforts to provide the user better products which are more convenient to use and deliver better performance, certain changes have been made in vent/drain valves of **mdi** Large Capsule Filters with catalog numbers as mentioned above.

#### Need for Change:

Although, the existing vent/drain valves of **mdi** Large Capsule Filters with catalog numbers as mentioned above are validated to perform the venting operation during actual use, these have been replaced with vent/drain valves with an improved design to provide enhanced grip and therefore easier handling while opening and closure of these valves. The improved vent/drain valves with improved grip have been validated and are already being used successfully for Large capsule Filters other than those specified above.

No change has been done in any critical dimensions of the Large Capsule Filters.

### How Does It Affect the User:

From a practical point of view the changes done will make the product easier to use for the user. All performance specifications, product attributes and materials of construction will remain unchanged.

**mdi** Large Capsule Filters manufactured after the implementation date as mentioned above will have the said changes.
