**Subject : Improved product package label (with QR code) for mdi products**

**Scope : This change notification will affect the products with following catalog numbers (\* can be any alphabet or numeral):**

- A\*\*\*\*\*
- C\*\*\*\*\*
- D\*\*\*\*\*
- E\*\*\*\*\*
- F\*\*\*\*\*
- G\*\*\*\*\*
- H\*\*\*\*\*
- I\*\*\*\*\*
- L\*\*\*\*\*
- M\*\*\*\*\*
- N\*\*\*\*\*
- P\*\*\*\*\*
- Q\*\*\*\*\*
- R\*\*\*\*\*
- S\*\*\*\*\*
- T\*\*\*\*\*
- V\*\*\*\*\*
- X\*\*\*\*\*

**Background:**

In our efforts to provide robustness to the invoicing process during dispatch, certain changes have been done to product package label of **mdi** products with catalog numbers as mentioned above.

**Need for Change:**

Invoicing for **mdi** products during dispatch is being done manually by entering the product details in the invoicing program. Although, dispatch personnel are well trained for invoicing and dispatch of the products, manual system for invoicing has probability for incorrect product details on invoice. To make the invoicing system more robust by reducing manual interventions, product package label of **mdi** products with catalog numbers as mentioned above has been modified with inclusion of a 'QR code' for automatic capture of product details during invoicing. All the product details on invoice will now be captured automatically by scanning the product package label.

Change Notice No.	Notification date	Implementation date
CN/16/15	24 <sup>th</sup> December 2016	26 <sup>th</sup> December 2016

**How Does It Affect the User:**

From a practical point of view, this change only affects the product package label of **mdi** products. All performance specifications, product attributes, and traceability will remain unchanged. All packaging and labeling attributes such as packaging box, pack size and content of the product package label remain same as before, only additional information in the form of 'QR code' has been included in the label.

**Implementation of Change:**

The implementation for the new system was planned for the first quarter of 2017 but in the third week of December 2016 we experienced a sudden unplanned breakdown of our computer server used for generation and printing of product package label. This forced us to prepone implementation of this change. Being a Minor Change it has been decided to use modified product package label including 'QR code' with immediate effect (**26<sup>th</sup> December 2016**). However, the available stock of **mdi** products with old product package label will be received by you till the stock last.

In case you have any queries, please feel free to contact our Technical Support Team at 'info@mdimembrane.com'.
