

<b>Change Notice No.</b>	<b>Notification date</b>	<b>Implementation date</b>
<b>CN/D/21/001</b>	<b>July 8, 2021</b>	<b>August 8, 2021</b>

**Subject : Addition of specifications in Certificate of Quality (CoQ) for mdi Diagnostic Products**

**Scope : This change notification will affect the following products:**

- Absorbent Pad - AP
- Blood Separation Membrane - FR
- Conjugate Release Matrix - PT
- Immunofiltration Membranes - CNJ and CLW
- Sample Pad - GFBR

**Background:**

In our efforts to provide the user/customer relevant information regarding the products they are using, certain changes have been made to the contents of product related literature for mdi products as mentioned above. The change will have no impact whatsoever on the product performance.

**Need for Change:**

Presently, the CoQ of the above mentioned products contains mean/average values of the results for respective test parameters. However, the specifications for the test parameters are not mentioned. It has been decided to modify the CoQ for the products mentioned above and add specifications for different test parameters for convenience and easy reference.

**How Does It Affect the User:**

From a practical point of view, these are 'paper changes' and in no way will affect the product properties, performance or characteristics of the product under actual conditions of use. In addition, all product specifications and attributes including materials of construction as well as other performance specifications shall remain unchanged. The said changes will be reflected in the Certificate of Quality (CoQ) accompanying the product .

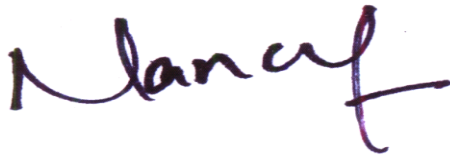

**Implementation of Change:**

mdi Diagnostic products with types as mentioned above, released after **August 8, 2021** will have Certificate of Quality (CoQ) and labels with above said changes.
