Change Notice No. CN/D/24/001		Notification date January 12, 2024	Implementation date	
			February 12, 2024	
Subject	: Change in the inner box packaging for product type-Blood separation membran (FR), Flow through membrane (CLW), Conjugate release matrix (PT), Sample pa (GFB) for all strip form of materials of mdi diagnostic products.			
Scope	: This change no • PGFXXXXXX • PTRXXXXXXX • MCLWXXXXX	XXXXX	with following catalog numbers:	

• BFRXXXXXXXXXXXXX

Background:

In keeping with our continuous efforts to improve our products, changes have been made in the primary packaging of **mdi** diagnostic products with catalog numbers as mentioned above in scope. This advance change notification is initiated to communicate this updated information to the end user.

The change will have no impact whatsoever on product performance or regulatory performance.

Need for Change:

This change is related to the primary packaging of **mdi** diagnostic products with catalog numbers mentioned above. In order to make the system uniform, instead of plain tray boxes of size- (305X130X15) mm and (305X130X30) mm, it has been decided to use mdi printed boxes of size- (305X130X15) mm and (305X130X30) mm for primary packaging of all strip form of **mdi** diagnostic products with catalog numbers mentioned above

No change has been done in any materials of production, performance parameters or any critical dimensions, nor is there any change change in packaging materials. Only printing is added.

How Does It Affect the User:

From practical point of view, this change will only affect the packaging of all types of **mdi** diagnostic products with catalog numbers mentioned above in scope. All performance specifications, product attributes, materials of production remain unchanged.
