Change Notice No.	Notification date	Implementation date
CN/F/22/010	January 05, 2023	February 05, 2023

Subject : Rationalization of catalog numbers of mdi Quick Connectors (Male and Female Plug)

Scope

: This change will affect the products with following catalog numbers: (# can be any alphabet or numeral):

- QCMXXXPB#######
- QCMXXXPI########

## **Background:**

In our efforts to improve the ordering information of mdi Quick connectors, the above mentioned catalog numbers of mdi Quick connectors have been rationalized. The new catalog numbers for same mdi Quick connectors (Male plug and Female plug) and having better description of the product are already available.

### **Need for Change:**

**mdi** Quick Connectors type Male plug and Female plug are identified with unique catalog numbers as mentioned in the scope.

**mdi** Quick Connectors are normally used by attaching a tube to open end of Quick Connector. The dimensions of tube may be different in different applications and require Quick connectors with different inlet dimensions for proper fitment of tubes. To address this requirement, the catalog numbers for **mdi** Quick Connectors type Male plug and Female plug were made incorporating the description of tube dimensions in product catalog numbers. This resulted into two different catalog numbers for the same type of Quick Connectors.

To rationalize the catalog numbers, the catalog numbers of **mdi** Quick connectors as mentioned in scope have been discontinued. The new catalog numbers for same type of **mdi** Quick connectors and having better description of the product are already available.

No change has been done in any materials of construction or any performance parameters or any critical dimensions or traceability.

Change Notice No.	Notification date	Implementation date
CN/F/22/010	January 05, 2023	February 05, 2023

#### How Does It Affect the User:

From a practical point of view, this change only rationalizes the catalog numbers of same type of **mdi** Quick Connectors. All performance specifications, product attributes, materials of construction, product packaging and traceability shall remain unchanged. The new catalog numbers for same type of **mdi** Quick connectors and having better description of the product are already available as mentioned below:

Quick connector	Catalog number without description of tube dimensions	Catalog number with description of tube dimensions
type	(to be discontinued)	(to be used onwards)
Male Plug	QCMXXXPB######	QCMX12PB######
Female Plug	QCMXXXPI#######	QCMX12PI######

Note: # can be any alphabet or numeral

### Implementation of Change:

**mdi** Quick Connectors with catalog numbers as mentioned in scope, manufactured after the implementation date will be only with new catalog numbers (having better description of the product) defined for same type of **mdi** Quick connectors.
