Change Notice No.	Notification date	Implementation date
CN/F/23/004	August 25, 2023	September 25, 2023

Subject

: Rationalization of primary packaging of autoclavable non sterile small capsule filters packed in poly pouches

Scope

: This change will affect the small capsule Filters with following catalog numbers: (# can be any alphabet or numeral):

- D########X#1##
- GW########X#1##
- MD#######X#1##
- MVLO######X#1##

### **Background:**

In our efforts to improve/rationalize the packaging of our products, certain changes have been made in the primary packaging of **mdi** autoclavable non sterile small capsule filters having catalog numbers as mentioned in the scope and packed in poly pouches. This advance change notification is initiated to communicate this updated information to the user.

#### **Need for Change:**

**mdi** autoclavable non sterile small capsule filters are sometimes individually sealed in poly pouches prior to packaging in E-flute white boxes. In order to improve/rationalize the packaging of such filters, it has been decided to use medical grade paper packaging/pouch for packaging of **mdi** autoclavable non sterile small capsule filters packed in poly pouches.

The medical grade paper packaging will facilitate the autoclaving of **mdi** autoclavable non sterile small capsule filters directly into medical grade paper packaging/pouch.

No change has been done in materials of construction or performance parameters or manufacturing process or critical dimensions or traceability of **mdi** autoclavable non sterile small capsule filters.

#### How Does It Affect the User:

This change is related to the primary packaging of **mdi** autoclavable non sterile small capsule filters packed in poly pouches and the packaging will be improved/rationalized to medical grade paper packaging/pouch. All product specifications including materials of construction as well as performance specifications for capsule filters shall remain unchanged. The pictures describing the change are shown in figure-1.
