

Reference : CHANGE NOTICE No. MB/11/03

Subject : Change in mdi Closed Sterility Test Device type Stericheck-SVP2 (All membrane types)

Scope : This change notification will affect the following component of mdi Stericheck:

- Needle - New improved design

Background:

In our efforts to provide the user better products with more convenience, certain changes have been made in the needle of mdi Closed Sterility Test Device type **Stericheck-SVP2** (All membrane types).

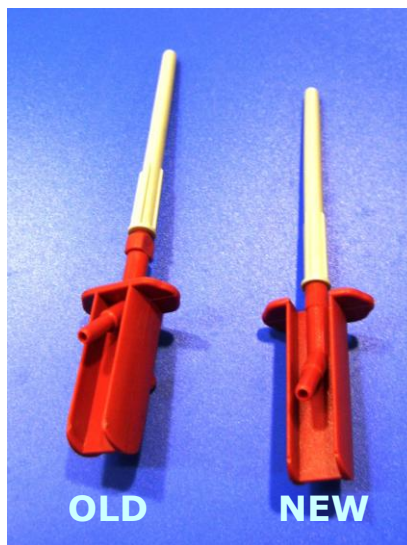

Need for Change:

As above.

How Does It Affect the User:

From a practical point of view this change will improve the needle performance under actual use. All performance specifications and product attributes remain unchanged.

- **Stericheck SVP2 needle:** A new integral design of needle and Y connection has been made which will eliminate the assembling and jointing and further reinforce the needle grip.

Effective Date:

mdi Closed Sterility Test Device type **Stericheck-SVP2** (all membrane types) manufactured after January 20, 2011 will have said changes.
